

2016 - CUBA

Cuba is at an amazing stage in its history. The old prevails, but the modern world is creeping in. On this very special tour, which we have designed around the experiences of recent groups, you will experience a cross-section of Cuba as it is today. From Spanish splendour, wander through a labyrinth of architectural periods and a blend of ethnic backgrounds, as we take you across this nation. Experience the lifestyles of Havana, and then relax in towns that have remained unchanged for decades. You will have the opportunity to stay with a Cuban family and truly experience the real Cuba.

This is our third group tour to Cuba in less than 12 months so join us on this unique itinerary. It is not being offered elsewhere or in conjunction with any other Australian operator.

Departure is on the 21st March 2016, returning to Sydney on the 12th April.
